About me

Flutter Developer with 1.9+ years of professional experience building scalable, high-performance cross-platform mobile applications. Proficient in MVVM and clean architecture, efficient state management and seamless API integration, with a strong focus on writing maintainable and optimized code. Committed to delivering user-focused mobile solutions that solve real-world problems.

Work experience

Flutter Developer — Jan 2025 – Present
Sohojware IT, Barishal

- Developed and maintained scalable Flutter applications using MVVM and clean architecture.
- Implemented Provider/Bloc state management and integrated REST APIs and Firebase services.
- Designed responsive, offline-first UIs using SQLite for efficient local data handling.

Application Development (core qualification) — 2024 – Present
Flutter, Dart, Android
MVVM, clean architecture, Firebase, REST APIs, state management, local storage.

Education

B.Sc. in Computer Science — Summer 2023 – Present
University of Global Village (UGV), Barishal

Android Development (Industrial Attachment) — Oct 2022 – Jan 2024
Creative IT Institute, Dhanmondi, Dhaka

Diploma in Computer Science & Engineering — 2018 – 2022
Infra Polytechnic Institute, Barishal · GPA 3.72 / 4.00

SSC (Science) — 2013 – 2018
Allankerkathi M.R High School, Pirojpur · GPA 3.33 / 5.00

Skills

Flutter (Dart) — Intermediate: cross-platform apps, Provider & Bloc, Firebase, REST APIs, Material UI.
Android native (Java, Kotlin) — Intermediate: Firebase, SQLite, Retrofit, MVVM.
Programming — Intermediate: problem-solving, 100+ algorithm problems solved. **Others** — Beginner: RDBMS.

Projects

Afrikart (E-Commerce) — Ongoing · Flutter
Authentication, product browsing and details, cart and order placement using RESTful APIs with secure integration and Material UI.

Gift N Gadget BD (E-Commerce) Flutter
E-commerce app for gifts and gadgets. github.com/ubwasi/gift_n_gadget_bd

Chat App Sep 2026 · Flutter
Real-time chat with Firebase Firestore and Authentication, live message sync and user presence.

Water Reminder Aug 2026 · Flutter
Hive-based offline-first app tracking daily water intake with customizable reminder notifications.

Doctor Apps Jan 2026 · Flutter
Patient login/sign-up via REST APIs, doctor profiles and appointment booking.

Period Tracker Dec 2025 · Flutter
Hive-based cycle logging and prediction with notification alerts. github.com/ubwasi/period_tracker

Todo App Flutter
Offline task manager using Sqflite (SQLite).

Demo Authentication Flutter
REST API authentication flow. github.com/ubwasi/demoAuthentication

Language Translator Flutter
Text translation using Google ML Kit.

Anglica Fitness Aug 2025 · Flutter
Workout plans, progress tracking and interactive UI for Android and iOS.

Tourist Bangladesh Mar 2024 · Android
Tourism app with location-based recommendations.
